To Whom It May Concern:

Miss Frances Treadwell has been in my advisory group for two years. Though I have not taught her, I have learned from her teachers and from her scholastic record that she is a superior student. She is well poised, attractive, friendly and should make a satisfactory teacher for elementary grades. Her father's experience as a teacher should be valuable to her in understanding her chosen profession. I believe Miss Treadwell will do well whatever she is willing to undertake.

Yours truly,
